ITB 14-04 Street Sweeping and Debris Removal Services

Questions Addendum III

- 1. Will the City have water for dust control on sweepers? The Notice of Award is August 19, is that a misprint?**
Submitted by Larry Gleaton
Sweeping Corp. of America
- a. Water obtained for dust control and any other purposes will be the responsibility of the contractor. Since fire services are maintained and operated by DeKalb County, permission and coordination with DeKalb County may be an option. If permission and coordination cannot be obtained, then the contractor must acquire water from other sources at the discretion of the contractor.
